PROJECTS REPORT

❖ **Friendly – Social Dashboard**

- Made a replica of the facebook news stream for learning purpose. Learning how to use HTML/CSS and Bootstrap effectively.

❖ **Virtual Piano**

- A song playing app built using JavaScript. The app allows a user to play & pause a song, and create a playlist. It also gives user access to shuffle or skip any song – along with other functionality you'd expect in a music app.
- Update the music app to be a virtual keyboard/synthesizer.

❖ **Favourite food list**

- The app maintains a list of favourite food items of a user. The app requires the user to provide an image of the food and automatically stores the ingredients in the dish. To achieve this the clarifai api was used.
- Favourite ingredients – takes in a list of ingredients that user prefers and uses that to predict which food item they'd like the most (p.s. will use multiple images and multiple \$http requests).
